Central

Welcome to Great Oak Cohousing! With the largest floorplan in the neighborhood, this 4 bed/3 full bath townhouse has room to roam and entertain! Main floor greets you with a 2021 kitchen remodel, and a great room with wood burner stove and plenty of windows. Bedroom, full bath, and access to the huge balcony deck make for easy living on one floor. Upstairs has a primary suite with walk-in closet and full bath with jetted tub. Two more large bedrooms on this level share a full hall bath. Recently finished basement with rooms for recreation, office, and extra guest space walks out to a private covered patio - another great space for playing with the kiddos and pets. This home has solar panels to offset utility costs and also comes with a detached garage. Great Oak Cohousing is an intentional, collaborative community where residents enjoy private home ownership but also actively participate in the operation of their own neighborhood. The common house provides kids' play room, media room, meeting/mediation space, guest room, workout space with hot tub, and a commercial kitchen and dining hall. Enjoy community gardens and outdoor exploration spaces for all ages! To learn more, visit: [www.gocoho.org](http://www.gocoho.org)
